

COURSE CALENDAR FALL 2023

If for any unforeseen reason we are unable to meet, course material will be held during the next class.

Even though the class is asynchronous, meaning you do not have to watch and do the presentations on the exact day of Wednesday, since all the presentations will be available to watch any time during the week, **I am asking everyone does their very best to show up at least 6:00-6:30 p.m. MINIMALLY on the very first Wednesday. unless you have an emergency, the entire 3 hours of first class covers important items.** There are a few revisions needed on the videos, so next to video links, on the day before the class, I will list those corrections. Each Wednesday thereafter, I will be on live zoom 6:00-6:30 and will stay as long as you like up to 9:00 if needed. Additionally, you can email me for one on one help, just give me two of your best available times if you want to meet on Zoom or on a phone call. Please alert me if you end up going far ahead of the rest of us just in case I still to make changes to future assignments, I can let you know corrections before you do future not yet due work.

Wednesday 08/23	Required/Mandatory first week Communication assignment: All students Communicate either by posting on Canvas Discussion board, or emailing instructor your response to this: which of the assignment below seems it will be the most interesting or seems it will be the most complicated; or be an overachiever and give your opinion on both.
